

EXELERATE™ 100

PRODUCT DESCRIPTION

Exelerate™ 100 is a highly concentrated nitric acid based detergent containing a wetting agent, designed for CIP systems and evaporator CIP in cheese processing.

BENEFITS

Promotes Quality Assurance

- Enhances finished product quality and shelf life when used in a total Ecolab product and professional services program.
- Maintains cleaning effectiveness at high cleaning temperatures.
- Helps prevent milkstone, lime and mineral build-up.
- Leaves stainless steel surfaces bright and shiny.

Saves Time and Money

- Highly concentrated for use-cost effectiveness
- No expensive additives necessary
 - Built-in wetting agent helps assure quick, complete soil penetration and removal.
 - Can be used alone for a single phase acid cleaning between cheese vat production.

Environmentally Responsible

- Application of Exelerate 100 helps ensure reduced phosphorous levels while delivering cost effective cleaning performance
