

# EXCELERATE™ 101

---

## PRODUCT DESCRIPTION

Exelerate™ 101 is a concentrated nitric/citric acid based detergent designed for CIP systems and evaporator CIP in cheese processing.

---

## BENEFITS

### Promotes Quality Assurance

- Enhances finished product quality and shelf life when used in a total Ecolab product and professional services program.
- Maintains cleaning effectiveness at high cleaning temperatures for superior cleaning.
- Rapidly penetrates and dissolves milkstone, mineral, and hard water scales.
- Free-rinsing for film-free, clean equipment.

### Saves Time and Money

- Highly concentrated for use-cost effectiveness.
- Non-corrosive to stainless steel at recommended use dilutions; protects equipment investments.
- No expensive additives necessary.
  - Built-in wetting agent helps assure quick, complete soil penetration and removal.
  - Can be used alone for a single phase acid cleaning between cheese vat production.
- Low foam levels in CIP application to improve CIP cleaning efficiency and reduce cycle time.

### Environmentally Responsible

- Exelerate 101 does not contain phosphoric acid or any other source of phosphorus.
