

EXCELERATE™ 320

PRODUCT DESCRIPTION

Exelerate™ 320 is an additive for use with alkaline detergents for CIP cleaning in the dairy industry.

BENEFITS

Promotes Quality Assurance

- Removes milkstone and water scale in the alkaline wash thereby reducing the acid wash step
- Supports the rapid removal and suspension of fatty and oily product residues

Promotes Increased Production Time

- Reduces the need for most acid cleaning steps

Promotes Environmental Responsibility

- No inorganic phosphate
- Chlorine free
