

# PORTA-WASHER® MODEL 4061 PORTABLE SURFACE CLEANING SYSTEM

## Product Description

The Ecolab Model 4061 portable cleaning system is a skid mounted, single hose, 600 psi cleaning system, and is ready for owner's hook-up of water, and electricity.

## Benefits

- Compact
- Product Quality
- Cleaning and Sanitizing Flexibility
- Cost Efficient
- Chemical Control

## Standard Features

- One (1) 40' hose
- Foam Injector
- 600 psi output
- Painted portable cart
- One (1) 3 GPM nozzle
- 1-1/2 HP piston pump
- 6' Power cord
- Foam/rinse gun

## Applications

The 4061 portable surface cleaning system is suited to small facilities or local cleaning applications that require high pressure to cut soil. The system provides flexibility required for multiple cleaning applications, or for sanitation program development.
