

## Introducing Concentrated Liquid Dishmachine System (CLDS)

Safe and Simple Low-Temp Warewashing

**ECOLAB®**

Everywhere It Matters.™

# Delivering consistent performance safely and efficiently.

In a foodservice kitchen, warewashing needs to be safe and reliable. That's why you need a system that:

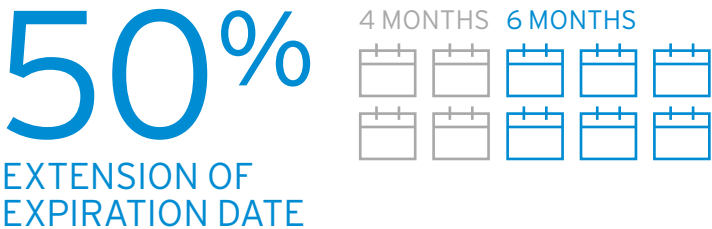

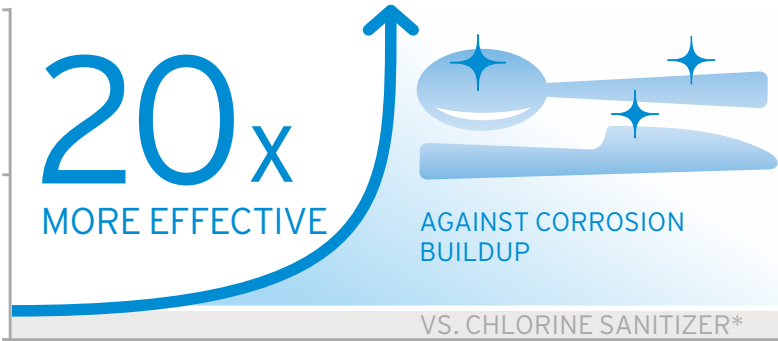

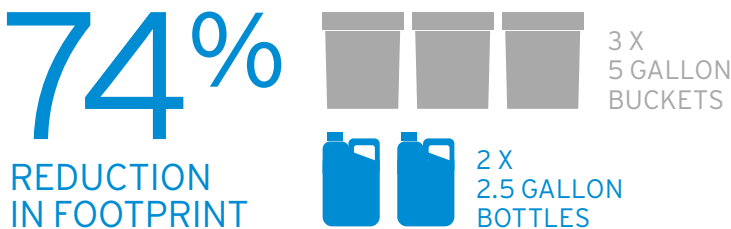

- Is easy to use
- Helps keep employees safe
- Delivers consistent results
- Comes with personally delivered service you can trust

Ecolab has created the Concentrated Liquid Dishmachine System (CLDS), an innovative product line for low-temperature dishmachines that gives you consistent results while helping to maximize safety and efficiency.

# Concentrated Liquid Dishmachine System was specifically developed to help address your biggest concerns:

- **Employee safety:** New lightweight design is easier to carry, while color-coded dispensing system helps eliminate cross-contamination
- **Save space:** By combining rinse additive and non-chlorine sanitizer into one formula
- **Meet safety standards:** Non-chlorine sanitizer is EPA-registered and NSF-certified for use in Ecolab dishmachines\*\*

	Product	Pick Code	Pack Size	Features
	Concentrated Liquid Dishmachine Detergent**	6100968	1 - 2.5 gal	Highly concentrated detergent, integrated dispensing, lockout fitment
	Concentrated Sanitizing Rinse**	6100804	1 - 2.0 gal	Highly concentrated sanitizer*** with rinse aid properties, integrated dispensing, lockout fitment

\* CLDS's Peracid sanitizer helps to reduce corrosion build up in silver plated ware up to 20x vs. chlorine sanitizers.  
 \*\* Products only available with Ecolab Dishmachine Program (EDP)  
 \*\*\* Peroxyoctanoic Acid (POOA)

With Ecolab, you get the peace of mind that only comes with the quality service personally delivered by your Ecolab representative.

# The Ecolab Service Advantage: The power behind a spotless reputation.

At Ecolab, we don't cut corners when it comes to protecting your reputation. That's why we go beyond the basics to help you achieve what really matters for your business:

- **Peace of mind:** With Ecolab, you have an expert partner to help you maintain the safety and efficiency of your operation
- **Proactive solutions:** We help spot potential problems before they happen, and we provide your team with tools and training to help prevent problems from occurring
- **Positive business results:** We partner with you to provide customized solutions designed to help maximize efficiency and minimize risk
