Ecolab Healthcare is driven to help health systems and hospitals realize clinical, operational and financial value through repeatable and measurable workflows. Our standardized processes and digital dashboards provide actionable insights and opportunities for corrective actions that help reduce the costs and inefficiencies of infections, while improving margins and keeping patients and staff safe.

**A PROGRAMMATIC APPROACH TO PROTECTING PATIENTS, STAFF & MARGINS**

Ecolab Healthcare offers four programs to address critical needs in the hospital environment through analytics, digital dashboards, on-site expertise and workflow enhancements.

**CONSISTENCY & STANDARDIZATION**
We help hospitals standardize workflows and implement process controls to help reduce infections and mitigate ancillary costs.

**ACTIONABLE INSIGHTS & DIGITAL DASHBOARDS**
Our solutions include clinician-friendly dashboards with real-time insights that drive standardization, ensure compliance and pinpoint where corrective action is needed.

**OPTIMIZING MARGINS**
We help to protect from the financial impact of infections ranging from re-admission costs and lost reimbursement to poor patient ratings and damage to your reputation.

**PATIENT & STAFF SAFETY**
Ecolab scientists develop unique solutions and workflows that enable hospitals to create cleaner and safer environments.
