Specific delivery requirements: Aberdeen plant Nalco Champion Plant

ECOLAB EUROPE GmbH tooling plant Minto Avenue, Altens Ind. Est. Aberdeen AB12 3HT

1. Safety:

All drivers will be required to comply with Nalco/Ecolab/Swire safety policy and procedures. Site rules must be obeyed at all the times.

The following standards are established and maintained at all Manufacturing Plants and apply strictly to all employees, contractors, and visitors.
Late shipments - must notify immediately if the delivery will be late.

At a minimum, the following Personal Protective Equipment must be worn:

- Long sleeved shirts
- Full leg pants
- Hard hats
- Safety glasses with side shields (norm EN 166)
- Safety chemical resistant shoes with toe protection and chemical resistance
- High visibility clothing

All visitors must comply with the below safety requirements:

- NO alcohol, NO smoking, NO passengers are allowed on site
- Vehicles must have adequate facilities to allow 'safe access' for all elements of the unloading operation. Drivers are not allowed on the back of vehicles.
- Drivers must remain in their truck or in a safe area within the Plant during loading and unloading operations. Drivers must remain with the cab during discharge. Drivers MUST NOT enter production hall without staff personnel authorization
- All drivers must report to reception and sign in before locating vehicle in loading/unloading bay
- Driver must understand at least Language of the country of delivery and/or English
- Plant speed limit of 10 mph or 15 Km/H
- Electronic devices must be switched off before entering site and at all times while on site other than when in the office

2. Package labeling:

All containers (drums, porta-feeds, bulk, bags, etc.) must show:

- The raw material number, lot or batch number, weights, and must align with all paperwork
- Lot or batch numbers must be traceable to a manufacturing date. The word "lot" or "batch" must precede theumber (e.g. Lot#-9999)
- Weights on all containers must have gross, net and tare weights clearly shown and must match all paperwork.
- Labeling of hazardous goods must comply with current regulations.
- Labels must have expiry dates.

3. Package Standards:
- Unless required: Porta-Feed units, Drums/IBCs must be clean, sealed and labeled properly as per general requirements (paragraph 2), have no leaks, loose bungs, dents or use reconditioned sign, and be in serviceable condition.
- Product labels must adhere to containers.
- Bags must be palletized and stacked straight, interlocked and shrink wrapped.
- Pallet must be of adequate strength to support material. No torn bags accepted.
- Containers must comply with current Packaging (Essential Requirements) Regulations.
- UN packages must be used for dangerous goods.

4. Bulk shipments:
- Shipped quantity must be within 2% or 200kg (whichever is greater) of quantity ordered. Actual weight accuracy must still be +/- 1% of weight on shipping papers.
- Tank trucks must have proper unloading equipment, valves, fittings, adaptors, pumps, proper tank metallurgy, specified unloading (rear or belly), safety equipment including harness, instructions for driver, and clean, dry chemical hose for product on the tank truck.
- Tanker connections should be to a 3” BSP male thread.
- Bulk loads must have 2 handrails unless the tanker has the facility to be vented from the ground so no top access is required.
- All deliveries are to report to the weighbridge prior to delivery at the following address:
  
  Charles W Mitchie  
  54 Park Road  
  Aberdeen,  
  AB2 1PA  
  
  Opening hours are 8.00am - 3.00pm.

5. MSDS:
- At first shipment, and upon each revision, a copy of the Material Data Sheet (MSDS) must be mailed to: EURRawMaterialSpecifications@ecolab.com.

6. Certificate of Analysis:

COA IS MANDATORY FOR UNLOADING THE GOODS  
Each COA must include the following information:
- Company Raw Material Number (e.g. as "R-739")
- Trade name and/or chemical name
- Purchase order number
- Plant address of Q.A. Laboratory
- Lot or batch number (Preceded by the word "lot" or "batch") - ONLY ONE LOT OR BATCH PER SHIPMENT!! Prior approval is required from Purchasing if the supplier cannot meet this requirement.
- RM production date.
- RM expiration date
- Analyst name and telephone number (in case of problems with the shipment)
- Supplier name and address - Distributors must provide the name of the approved manufacturer on each COA

Each COA must be attached to the shipping papers in an envelope marked “COA” and must accompany the shipment. Please also follow plant specific CoA mailing requirements below:

Aberdeen plant: aberdeen.QC@champ-tech.com

7. Shipping documents

- All deliveries must be accompanied by hard copies of the delivery paperwork and DGN's, Certificate of Analysis etc. If your haulier uses a PDA please ensure paperwork is emailed in advance of the delivery.
- The Nalco Raw Material Number, purchase order number, address and date should appear on all documents.
- A packing list is required detailing batch numbers and quantity per batch.
- For all products coming from outside the EU, please use Nalco’s import agent BDP:

BDP International UK Limited, Regent House, Twisleton Court, Priory Hill, Dartford, DA1 2EN

8. Nalco Specifications

- The supplier certifies that he will supply to Nalco the above listed products in accordance with Nalco specifications already sent or obtainable on request.
- Supplier shall give sufficient prior notice to Nalco of any change(s) in raw materials, specifications, manufacturing processes, manufacturing locations, or test methods for mutual assessment of the probable effect on Nalco’s process or product performance.

9. Chemical Regulations (Reach)

- All substances manufactured and/or imported in quantities of greater than one tonne/year even if only supplied in mixtures/preparations/polymers will need to be registered under REACH. All substances that meet the criteria of phase-in substance should therefore be pre-registered in order to benefit from the transitional periods provided for by the pre-registration phase of REACH.

- With respect to products supplied under this contract, the Supplier:

Confirms that it will undertake all the necessary measures to comply with these pre-registration steps, subsequent registration steps, and ensure that normal product supply availability is maintained to Nalco during REACH transition periods and afterwards. Should any issues relating to REACH compliance (including any decision to cease supply) become apparent that could impact supply to Nalco, then Supplier shall give at least 6 month’s immediate Notice to Nalco.

All the necessary documents will be sent to Nalco’s REACH program manager (email: reach@nalco.com) - Nalco, REACH Program Office, Cadland Road, Hythe, Southampton SO45 3NP, United Kingdom.

Confirms that the Supplier will support Nalco uses of substance concerned and generate any necessary support information.

Confirms that it will identify and provide up-to-date contact details of the person with day-to-day responsibility for
REACH within Supplier’s organization.

- Acknowledges the importance to Nalco of continuing supply of qualified products. Since any shortfall in REACH compliance by Supplier will result in significant and costly consequences to Nalco, Supplier will reimburse Nalco for all costs and damages arising from any Supplier-related REACH non-compliance issue.

10. Site Access.

Vehicles must book in a minimum of 48 hours prior to delivery via the telephone number +44 (0) 1224 241842. A booking reference will be given which should be quoted on arrival.
