As an Extension of The Healthcare Operation, it is Crucial That You Disinfect Your Customer's Linen.

Hospital linens can be the source of many pathogens that can cause illness. Help protect patients, and your customers.
AdvaCare™ Disinfectant is an EPA-registered laundry disinfectant oxidizer with kill claims against eleven microorganisms of concern on healthcare linen, including C. difficile; the number one U.S. healthcare-associated infectious microorganism. AdvaCare Disinfectant outperforms chlorine and peroxide for disinfecting, whiteness, extending linen life, sustainability and overall effectiveness.

AdvaCare™ Sets Your Laundry Apart

Stand out as the premier laundry destination in town. Using AdvaCare™ Disinfectant in the wash aisle, shows you’re going above and beyond for your customers and their patients. You’ll be seen as a valued and trusted partner for patient safety.

Go beyond wash aisle disinfection with the triple protection of ProTEX PLUS. Talk to your Ecolab representative to learn more.

1AdvaCare™ Disinfectant is an EPA-registered laundry disinfectant which is utilized in the wash process as an antimicrobial intervention and allows you to disinfect healthcare linens at temperatures as low as 140°F for 5 min. AdvaCare™ Disinfectant has kill claims for Staphylococcus aureus, Klebsiella pneumoniae, Pseudomonas aeruginosa, Acinetobacter baumannii, Escherichia coli O157:H7, Listeria monocytogenes, Methicillin - Resistant Staphylococcus aureus (MRSA), Community-associated Methicillin-Resistant Staphylococcus aureus (CA-MRSA), Salmonella enterica, HIV-1 (AIDS) Virus, Carbapenem - resistant Klebsiella Pneumoniae (KPC), Enterococcus faecalis - VRE, Clostridium difficile. Follow EPA label guidance for time, temperature and concentration requirements. The Clostridium difficile claim is currently being reviewed by the state agencies including the California Department of Pesticide Registration (CDPR).
