

WASHER PROCESS MONITORING SYSTEM

CENTRAL STERILE PROGRAM

WASHER PROCESS INDICATOR & HOLDER

- ▲ Sensitive to aspects of the automated and ultrasonic cleaning process and validated against a standard test soil*
- ▲ Mimics the realistic cleaning challenge posed by hard-to-reach instrument areas
- ▲ No blood products and non-toxic residuals
- ▲ Easy to interpret test soil with bright color and high contrast

WASHER PROCESS MANAGER

- ▲ Captures verification test results and data using an iOS app
- ▲ Customizable to meet your facility standard practices
- ▲ Automated cloud-based data management

ONLINE DATA PORTAL

- ▲ Real-time dashboard and on-demand data analysis
- ▲ Powerful insights for troubleshooting and staff training
- ▲ Customizable to meet facility-specific needs

A comprehensive verification and data management solution for automated and ultrasonic cleaning equipment

Test results from Washer Process Indicators are digitally captured on the Washer Process Manager App, and stored on the cloud-based customer Data Portal for on-demand data analysis and reporting

Talk to Your Representative About Our **Ecolab® Central Sterile Program** featuring the Washer Process Monitoring System

Part #	Description	Qty/Case
92023641	Washer Process Indicator	200
92023642	Washer Disinfectant Process Indicator Holder	1
53000615	Ultrasonic Washer Process Indicator Holder	1
