An Efficient Solution for Disinfecting

ELECTROSTATIC SPRAYING 101

It is critical to ensure your team and customers that your space is not only clean, but disinfected. Ecolab offers several disinfecting solutions to help you destroy or irreversibly inactivate bacteria and viruses. Solutions that are paired with Electrostatic Spraying (ESS) can help your disinfecting procedures become more effective and efficient.

ESS gives you the ability to rapidly and evenly coat hard surfaces with comprehensive coverage:

1. **Disinfect Effectively**
   - with electrostatic spraying and an EPA-registered solution approved for use against SARS-CoV-2.

2. **Continuously Apply**
   - solution through droplets that are electrostatically attracted to surfaces.

3. **Increase Coverage**
   - in high-touch areas by applying solution evenly and allowing droplets to distribute and cover entire surface.

4. **Be Efficient**
   - by covering surfaces faster with less disinfectant than alternative applications that use the same solution.

Public Spaces

- Lobbies
- Fitness Centers
- Pool Areas
- Classrooms
- Offices
- Meeting Rooms
- Employee Areas
- Restrooms

High Touchpoints

- Chairs
- Tables
- Countertops
- Desks
- Door Handles
- Escalator Railings
- Stair Railings

Restrooms

- Door Handles
- Faucets
- Toilets
- Countertops
- Dispensers
- Urinal Handles
