

# Get Insights. Take Action. Capture Value.

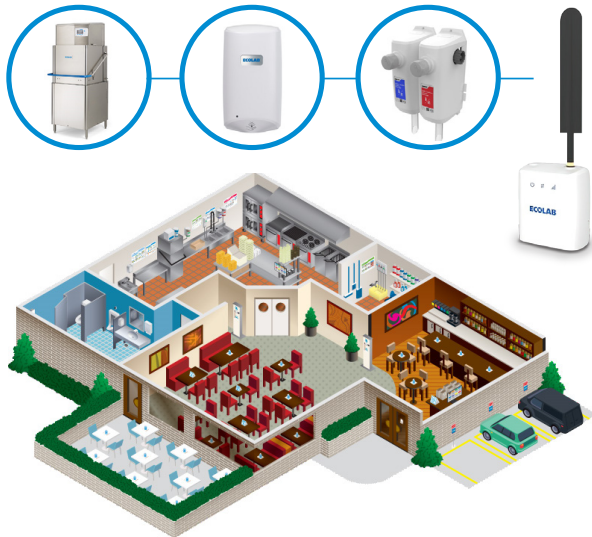

Foodservice Intelligence is an analytics platform that harnesses operational data and unlocks insights to help drive smarter performance across your organization.

- ▲ Proactively **mitigate risks** to protect your guests, staff, and business continuity
- ▲ Drive **consistent operational performance** and power labor efficiency
- ▲ Deliver **clean experiences** that inspire confidence and loyalty - every time

## Here's How it Works

**Digitally enabled solutions** collect and analyze data providing actionable insights that help you increase operational efficiency.

**360° visibility** across your organization and precision intelligence at each level.

Restaurant Staff

Corporate Office

Ecolab Service & Support
