

Controlled costs.
Consistent results.

Space constraints. Repairs and maintenance costs. Operational efficiency. Address all of these challenges by partnering with Ecolab to protect your residents and your bottom line – without an initial capital layout.

See the difference the Ecolab Dishmachine Rental Program can make to your bottom line.

Renting vs. Buying

\$1,040
in Annual Savings*

Advanced technology, consistent results

- Innovative solutions streamline your operations
- High-performing chemistry keeps your residents and employees safe
- Clean and sanitized wares protect your residents
- Strategic insights help ensure safety and increase your operational efficiencies
- Automated procedures mean consistent results

THE LATEST INNOVATIONS ARE NOW YOURS

SMARTPOWER™ Solid Chemistry delivers spotless cleaning action, more safety for your employees and is better for the environment.

SMARTPOWER™ Controller tracks operational efficiency. Actionable insights marry the right dishmachine function with the ideal chemistry for consistent results regardless of the conditions.

Commercial Dishmachine with SMARTCYCLE™ utilizes chip technology in the racks, automating the optimal use of water, energy and chemistry to achieve shining results.

Consistently clean and safe

Tough stains, hard water, soft water: Ecolab's advanced chemistry and automation give you one less worry to worry about – and your employees more time to devote to your residents.

Dependable, one-call, 24/7 service

Ecolab's service experts are always ready to help, day or night. From troubleshooting to repairs to maintenance, leave everything to us.
