

Powerful Protection For Maximum Production

*NPE-Free

I-deal™

by Ecolab
1% Iodine Barrier

ECOLAB®

Everywhere It Matters.

For powerful protection in a gentle formula, choose I-Deal, by Ecolab, a 1% iodine barrier for teat and udder health.

A Protective Teat Barrier That Works

I-Deal is a unique germicidal 1% iodine teat dip that forms a protective barrier on the teat and helps control bacterial organisms known to cause mastitis by providing broad-spectrum antimicrobial protection after dipping.

A SUSTAINABLE CHOICE FOR DAIRY FARMERS

I-Deal is free of Nonylphenol ethoxylates (NPE) and phosphorous for a more sustainable alternative to conventional teat dip formulations.

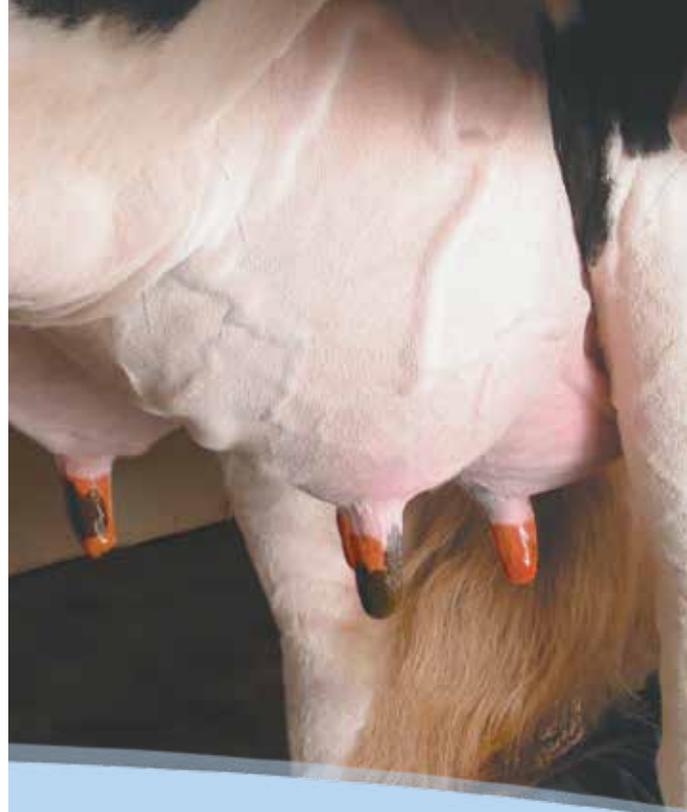

A STRONG SAFEGUARD

I-Deal contains a unique solution of 1% titratable iodine and an 11% emollient system with glycer in and is equally effective against both infectious mastitis organisms and environmental organisms such as E. coli. In fact, AOAC Germicidal and Detergent Sanitizer Tests showed greater than 99.999% reductions in Staph. aureus and E. coli organisms.

A SOLUTION THAT BENEFITS BOTH FARMERS & COWS

I-Deal features a non-irritating formula that is gentle on teats and hands. I-Deal features a non-irritating formula that is gentle on teats and hands. The barrier film is there when you need it—it creates a strong barrier that holds up in tough environmental conditions yet comes off again at the next milking. This feature saves prep time and reduces excessive consumption.
