

Forest Hospital

# Ecolab® OR Program

Independent studies confirm that surfaces in the operating room are not cleaned properly, regardless of how much time is spent cleaning. In fact, there is little correlation between the amount of time spent cleaning and actual cleaning effectiveness, suggesting there is a fundamental lack of process control during cleaning. Studies also link suboptimal cleaning processes to the transmission of pathogens that cause surgical site infections (SSIs) and other types of healthcare-associated infections (HAIs).

The Ecolab® OR Program is a complete offering that helps you monitor and standardize processes to drive measurable improvements in clinical, operational and financial metrics. This program helps drive and sustain OR turnover efficiency while also improving cleaning thoroughness, being Joint Commission audit-ready and protecting margins for your hospital. Over 2,500 operating rooms across the country rely on the Ecolab OR Program, with over 400,000 high-touch objects tested in the OR each year.

# **Program Benefits**

# Foundational Program Components

## **INNOVATIVE PRODUCTS**

# Advanced chemistry and technology to create cleaner and safer environments

- Patented DAZO® Fluorescent Marking Gel and Flashlight for quick, objective measurement of cleaning thoroughness
- OxyCide<sup>™</sup> Daily Disinfectant Cleaner enables proactive intervention against C. diff and other HAIs
- Custom Surgical Turnover Kits conveniently packaged for your hospital and procedures to improve OR efficiencies
- Disposable microfiber cloths and mops to ensure clean products for every room

## **ANALYTICS & ACTIONABLE INSIGHTS**

# Digital dashboards gather millions of data points to drive standardization, measure compliance and pinpoint where corrective action is needed

- App-enabled Observational Survey Tool for immediate qualitative evaluation of cleaning processes
- Customizable dashboards provide actionable insights at the system, hospital, unit, individual and even object level
- Real-time tracking on average time saved per OR turnover and AORN process adherence

## **CONSULTATION & SERVICE**

# On-site Ecolab experts deploy solutions, monitor progress and analyze performance metrics

- A dedicated local account executive to assist with hospital implementation and support
- Baseline audit and consultation to evaluate current practices and identify areas for improvement
- Proactive dispenser and product service ensure equipment is operating properly

## **TRAINING & PROCESS SUPPORT**

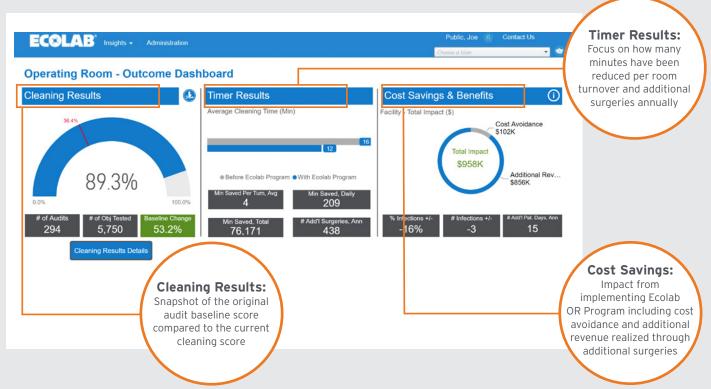

# Professional training for your staff to drive standardization, manage corrective actions and assist with change management

- Ongoing, in-person CE training aligned to industry best practices (AORN seal of recognition) ensures program success
- In-person manager training for digital dashboard and data analytics reporting
- Standardized cleaning flow charts and Lean Six Sigma process efficiency, simplification and standardization
- Ecolab OR Program Reinforced customers will have access to a library of on-demand training modules designed to develop core competencies for environmental cleaning and disinfection in the OR – anytime, anywhere

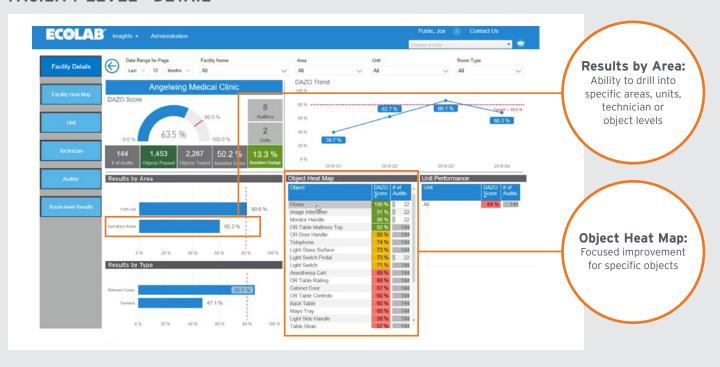

# Actionable Insights & Digital Dashboards

Customizable, clinician-friendly dashboards collect data on OR turnover time and high-touch object cleaning, measure compliance and pinpoint precisely where corrective action is needed, down to a department, team or individual level. These actionable insights allow department managers, clinicians, EVS staff and other authorized users to lead process improvements where they are needed most, standardize workflows and keep patients safe.

# **ADMINISTRATIVE OVERVIEW**

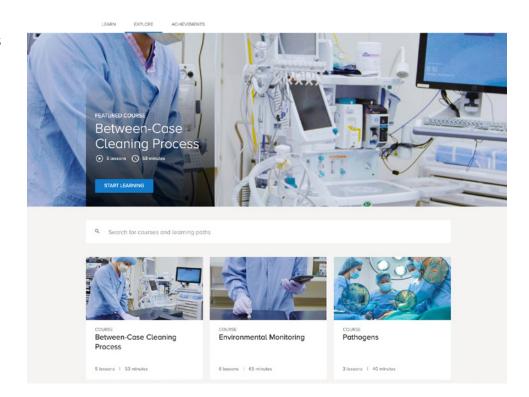

## **FACILITY LEVEL - DETAIL**

# **Ecolab On-Demand OR Training Modules**

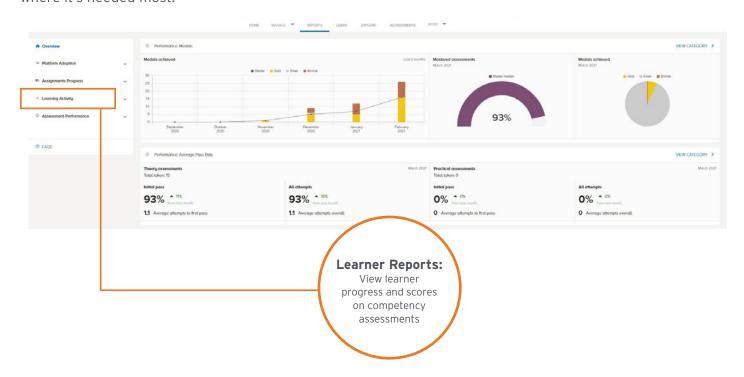

More than 30 interactive lessons strengthen cleaning workflows, standardize cleaning protocols and equalize the knowledge base among staff, regardless of tenure.

- On-demand training accessible at anytime and anywhere
- Standardized instruction to ensure consistent cleaning and outcomes
- Robust reporting for managers and immediate performance feedback for staff
- Content has been awarded the AORN SEAL of RECOGNITION

## **LEARNER REPORTS - ASSESSMENTS**

OR managers and educators can assign reinforcement training, monitor progress and report at the individual, team or hospital level. Combining consistent training and easy-to-access resources allows you to drive continuous improvement where it's needed most.

#### **CASE STUDY 1**

180-bed hospital | 19 ORs | 13,000 surgeries per year | Huntsville, AL

#### **HOSPITAL CHALLENGES**

High-touch objects not consistently cleaned for between-case or terminal cleaning

Difficulty knowing when a room had been cleaned

No standardized process for room turnover

Bleach disinfectant required a 10-minute contact time and damaged equipment, requiring replacement of OR table mattresses

#### **ECOLAB SOLUTIONS**

Worked side-by-side with hospital staff to facilitate process improvements and create a thorough, standardized room turnover protocol

Provided on-site best practices training on between-case and terminal cleaning for all staff

#### Introduced new environmental hygiene products & tools

DAZO® Environmental Monitoring tools for real-time and direct environmental hygiene monitoring and thoroughness of cleaning reporting

OxyCide™ Daily Disinfectant Cleaner with 5-minute contact time to address efficacy and material compatibility concerns

#### **OUTCOMES** Between-Case High-Touch Objects Terminal Case High-Touch Objects OR Turnover Time Decreased Cleaning Improved 3x Cleaning Improved 3x by an Average of 5 Minutes 100% 100% 97% 14 80% 80% 12 10 60% 60% HTOS % HTOs 40% 40% 0% 0% Ω 2 months 6 months 6 months Baseline Baseline Baseline postpost- post-implementation implementation postimplementation implementation implementation implementation

Achieved **\$15,000** in annual savings on OR mattress damage replacement costs

## **FACILITY POTENTIAL SAVINGS PER 1,000 PROCEDURES**

\$230,000 + 83 Hours

#### **CASE STUDY 2**

**576-bed** hospital | **27** ORs | **23,000** surgeries per year | **Pittsburgh, PA** 

#### **HOSPITAL CHALLENGES**

High-touch objects cleaned just 20% of time for between-case turnover

Between-case process and turnover times inconsistent and high cost

No method for determining thoroughness of cleaning

Poor communication, low job morale and high staff turnover among OR aides

#### **ECOLAB SOLUTIONS**

Standardized the cleaning process across OR teams to address cleaning thoroughness and efficiency concerns

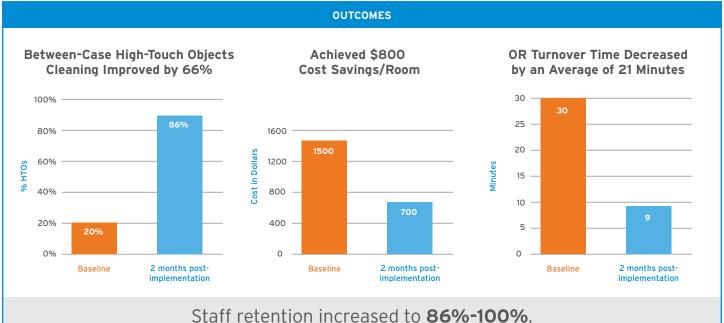

Provided on-site best practices training on between-case and terminal cleaning for all staff

#### Introduced new environmental hygiene products & tools

DAZO® Environmental Monitoring tools for real-time and direct environmental hygiene monitoring and thoroughness of cleaning reporting

Surgical room turnover kits with disposable linens, microfiber cloths and mops to increase room turnover efficiency and cleaning effectiveness

Point-of-use cleaning carts and tools to streamline the cleaning process and ensure compliance with best practices

Staff retention increased to **86%-100%**, and absenteeism has decreased

# **FACILITY POTENTIAL SAVINGS PER 1,000 PROCEDURES**

\$800,000 + 167 Hours

# **Program Outcomes Guaranteed**

Our programmatic approach optimizes workflows across multiple touchpoints within hospitals by backing up results and partnering to guarantee improved outcomes. Our commitment to measurable results allows us to ensure sustained savings and strong return on investment.

Learn more about the Ecolab Program Guarantees for turnover time reduction and high-touch object cleaning improvements by speaking with your Ecolab account executive.

Ecolab Guarantee **Improve** Turnover Time

**Improve** High-Touch Object Cleaning

## ABOUT ECOLAB HEALTHCARE

Ecolab Healthcare is driven to help health systems and hospitals realize clinical, operational and financial value through repeatable and measurable workflows. Our standardized processes and digital dashboards provide actionable insights and opportunities for corrective actions that help reduce the costs and inefficiencies of infections, while improving margins and keeping patients and staff safe.

Learn how our analytics-driven solutions and standardized processes can help your organization.
