

Ecolab® Disinfectant 1 Wipe – with plastic-free wipes<sup>1</sup>

# Get the most out of your wipe with F.A.S.T

**F**OLD  
The Wipe

It can be helpful to fold  
XL-size wipes, especially  
when cleaning large  
surfaces.<sup>2</sup>

**A**pply  
Pressure

With your palm and  
fingers, apply good  
pressure while wiping  
the surface to release  
disinfectant from the  
absorbent wipe.

**S**aturate  
the Surface

Wet the surface until  
visibly saturated.

**T**ime  
to disinfect

Keep the surface wet  
for the 1-minute  
contact time to  
effectively disinfect.<sup>1</sup>

**“has insane surface coverage” Healthcare Technician<sup>3</sup>**

1. Wipe material is plastic-free (packaging made of plastic: canister, soft-pack, bucket, refill bag), and is a USDA Certified Biobased Product (wipe material is 96% biobased). EPA Reg. No. 1677-263. Kills 40+ organisms in 60 seconds and kills *C. auris* and *T. interdigitale* in 75 seconds (refer to label for organism listing). Refer to product label for use directions. Biobased claim does not imply the safety of the product. Users must read and follow all label instructions.

2. Per CDC guidance, regularly rotate and unfold the wipe to use all sides (CDC Best Practices for Environmental Cleaning in Global Healthcare Setting, March 19 2024).

3. Blinded healthcare worker research. Healthcare workers were compensated for their time, but did not know Ecolab was the study sponsor. Brand labels were hidden or removed from packaging during the testing.

4. Based on DRG 2023 healthcare disinfecting wipes sales data at the individual SKU level. Multiplying the total wipes sold by SKU x the wipe length of the individual SKUs. Divided the total length by the circumference of the earth.
