When it comes to patient safety, the quality of your water is a top concern—and relying on the municipal water treatment process is not enough.

Complex building systems, water stagnation issues and inadequate disinfection practices are all factors that make waterborne pathogens difficult to control.

PROTECT YOUR WATER
PROTECT YOUR PATIENTS

A 200 bed hospital could easily use 100,000 gal/day

42-50% HAI’s Pseudomonas Infections linked to Building Water Systems

CHOOSING THE OPTIMAL SOLUTION

When you partner with Nalco Water, we work with you to develop the **most effective solution for your system.**

Your Water Safety Specialist will **analyze your site’s unique needs**, taking into consideration:

- Effectiveness of Disinfectant
- Safety Considerations
- Maintenance & Serviceability
- Control, Monitoring, Assurance Reporting
- Generation Technique
- Regulatory Requirements
- Permitting Requirements

RIGHT SYSTEM
MONITORING, CONTROL & COMPLIANCE

Nalco Water’s industry-leading technology is designed to keep your water supply — and your patients, employees and guests — safe. Our dedicated System Assurance Center is a team of degreed engineers who respond to alarms and troubleshoot your system(s) to ensure compliance.

- NSF/ANSI Certified, UL/CSA listed, NEC/NFPA compliant
- State-of-the-art feed & control system
- 24/7 remote monitoring & management
- Continuous monitoring & data logging of disinfectant residuals and building analytics in your domestic water system
- Installation & service provided by your Nalco Water Certified Service team

A VARIETY OF SYSTEMS TO MEET YOUR NEEDS

LIQUID CHLORINE

- 3D TRASAR™ Control and 24/7/365 monitoring/alarming
- 12.5% solution of chlorine*
- Simple, low cost program
- Direct measure of chlorine residual

* Liquid chlorine degrades via time and temperature resulting in increased feed rate and corrosion potential

ELECTROLYTIC CHLORINE GENERATION

- Ideal for Hot Water systems
- 3D TRASAR Control and 24/7/365 monitoring/alarming
- No chlorite concerns (an EPA regulated byproduct)
- NSF Certified, UL/CSA listed, NEC/NFPA compliant
- 2.64 lbs/day of 0.8% (vs 12.5%) chlorine solution
- Safe, stable, non-hazardous precursor (salt)
- Direct measure of chlorine residual

ELECTROLYTIC CHLORINE DIOXIDE GENERATION

- Ideal for Cold Water systems
- 3D TRASAR Control and 24/7/365 monitoring/alarming
- Excellent biofilm penetration and biofilm oxidation
- Single precursor system using no acid
- Up to 5.5 lbs /day of ClO₂
- Built-in softener to handle all water qualities
- Direct measure of chlorine dioxide residual
NALCO WATER’S MARKET-LEADING WATER SAFETY APPROACH

LEADERSHIP IN WATER SAFETY

For more than 25 years, Nalco Water has been the global leader in Water Safety. We’ve partnered with building owners, facility managers, environmental risk managers and infection prevention specialists to develop more than 10,000 Water Safety Management programs, each customized for specific operations.

Nalco Water is the only company that uses in-house, certified professionals to deliver all of the components of a water safety program, including remediation services. Backed by unparalleled technical resources, we have provided our scientific expertise and experience to governments, regulatory bodies and industry associations around the world.

RISK MANAGEMENT

- Water Safety Plans
- Data Analytics
  - Web-Based Data Management & Exception Reporting
- AQUAPATH Sensing
  - Online 24/7 Water Quality Monitoring
- Consulting & Support
  - Plan Design, Implementation & Training
  - Verification & Validation

LONG-TERM CONTROL STRATEGIES

- NSF Certified Secondary Disinfection
  - Liquid Chlorine Feed & Control Systems
  - Electrolytic Chlorine Generation Systems
  - Electrolytic Chlorine Dioxide Generation Systems
  - EPA Regulatory Guidance per SDWA
- Point-of-Use Water Filters
  - A Barrier for Waterborne Pathogens
  - Validated Up to 31-Days or 62-Days per ASTM F838-05 for 0.2 \( \mu \text{m} \) Sterilizing Grade Filters

SHORT-TERM REMEDIATION

- Remedial Cleaning & Disinfection Services
  - Cooling Tower Water Systems
  - Potable Water Storage Systems
  - Potable Water Distribution Systems
  - Decorative Water Features & Fountains
  - Fire Suppression Storage Tanks
- Emergency Remediation Services
  - Hyperchlorination Protocols

PATHOGEN ANALYTICAL

- Legionella Culture Testing per ISO11731
- Certified CDC-ELITE Proficient for Legionella
- Interpretation & Consulting
- Testing Plans for Program Confirmation
- Other Waterborne Pathogen Testing
  - Pseudomonas aeruginosa
  - Acinetobacter spp.
  - Mycobacterium spp.

SHORT-TERM REMEDIATION
