

## MICROBIAL DECONTAMINATION SERVICE

Establish a **clean break** with confidence.

For an emergency response or a preventative approach, choose Microbial Decontamination for fast, verified sterilization.

### How it works:

- Consultative approach & customized treatment plan
- Powerful & proprietary gaseous ClO2 delivery system
- Administered by Ecolab's licensed experts
- Documented, verified sterilization (6-log kill, 99.9999% )
- Typical service completed within 8-12 hours

### Our experts tackle your challenging cleaning environments:

- ✓ Dry-only Areas (no rinse required!)
- ✓ Difficult to break down equipment
- ✓ Difficult to reach harborage sites
- ✓ High stakes remediation scenarios

## FOOD RECALLS

on average cost companies

# \$10M

plus brand damage and lost sales<sup>1</sup>

## PLANT SHUTDOWNS

can lead to

# LOST PRODUCTIVITY AND LOST REVENUE

<sup>1</sup>According to a joint study done by the Food Marketing Institute & GMA
