

BROWN MARMORATED STINK BUG (BMSB) SERVICE

BROWN MARMORATED STINK BUGS ARE A NUISANCE PEST

ECOLAB SOPS ARE APPROVED BY THE AUSTRALIA DOA

TREATMENT DOCUMENTS ARE UPLOADED TO AUSTRALIA PROMPTLY

ECOLAB HAS 16 APPROVED BMSB TREATMENT CENTERS IN THE UNITED STATES

ENSURE DELIVERY OF YOUR GOODS AND MEET SEASONAL MEASURES

Ecolab is a registered treatment provider approved by the Australian Department of Agriculture (DOA) and the New Zealand Ministry for Primary Industries to perform BMSB fumigations. Actions have been put in place to mitigate risk and treat for BMSB September 1 - April 30.

Protect Your At-Risk Shipments

All goods manufactured in, shipped from, and/or vessels that berth at, load or transship from the United States are subject to seasonal measures.

Convenient Treatment Centers

Our treatment sites are located near most ports. We also offer mobile treatment options.

High-Security Container Seals

Once Ecolab fumigates a container, a high-security seal is attached which the Australian DOA designates as a "high-priority" shipment.

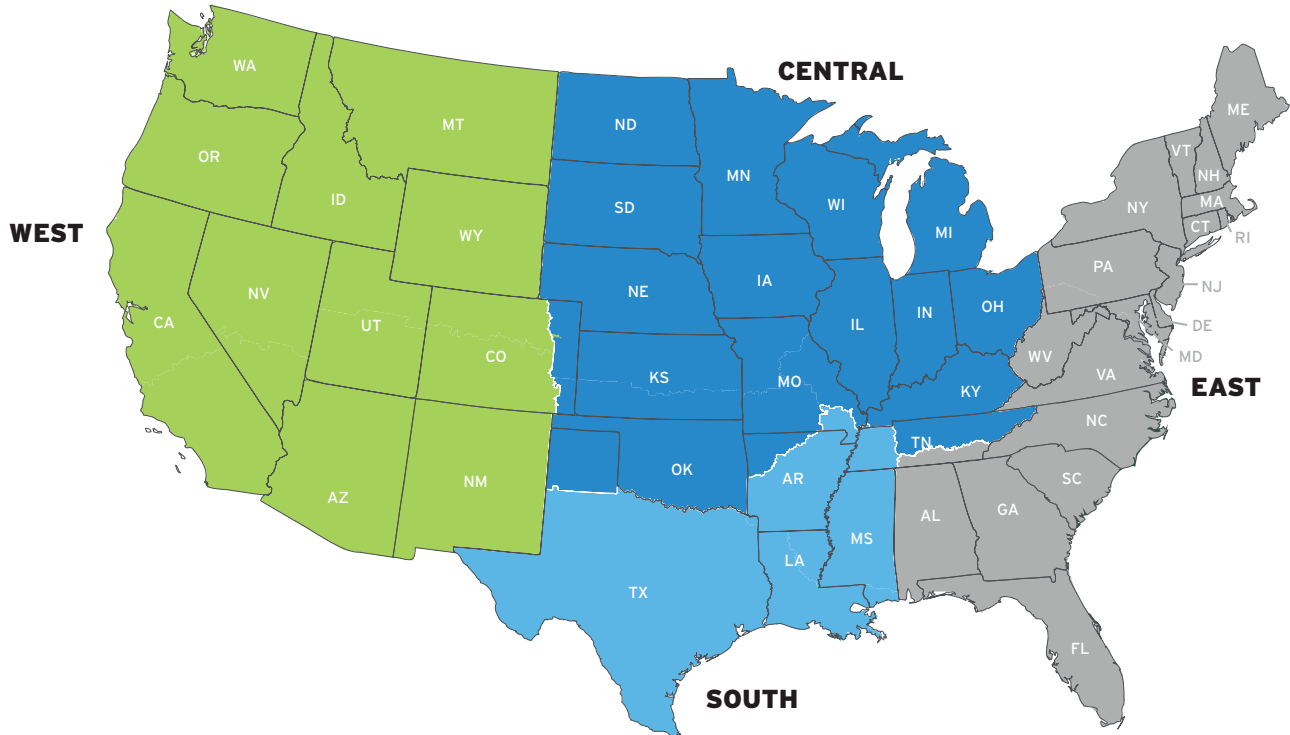

Expert Fumigators

Our national network of expert fumigators continually demonstrate our capacity to conduct BMSB treatments and fumigations with Sulfuryl Fluoride and Methyl Bromide. We know the target high-risk goods, understand the regulations and meet all standards.

TRUST ECOLAB TO HELP YOU
WIN THE FIGHT AGAINST PESTS

Expert Fumigation Across The Nation
