**In majority of the cases

ECOLAB®

Comprehensive Protection for Your Operation

Save Water. Save Energy. Save Time.

Reduce Alkali. Reduce Your Environmental Footprint.

ProTEX Plus is an integrated and customized program for your unique operation

- **Innovative chemistry** utilizing leading edge surfactant and enzyme technology resulting in a more efficient wash program that will reduce alkali, reduce wash temperatures, save water, and save time.
- **Highly trained experts** will thoroughly survey your plant and give product and formula recommendations based on their years of experience that will be optimal for your unique operations.
- **Proven results** tracked by Ecolab to help manage your costs, **reported back** regularly to prove the savings of your new wash program.
- **High quality linen cleanliness** to drive overall customer satisfaction.
- **Environmental sustainability** focus with the most sustainable chemistry, reducing your environmental footprint through water and energy savings, and wastewater compliance.
- **Flexible Solutions** to give you the program you need to differentiate your brand and further optimize your operation.
